Hamilton Rowing Club Won Exhibition Game From Cleveland Team

Back Checking of Local Team Played Important Part in Victory—Other Hockey Gossip.

(Special to the Times).
Cleveland, Feb. 23.—The Hamilton Rowing Club played real hockey here last night in a exhibition of shiny and fast play. The visitors, who were the Cleveland team, were defeated by a score of 5 to 3. The game was made up of more than the manner in which they played. The Hamilton team was made up of more than the manner in which they played. The Hamilton team was made up of more than the manner in which they played.

At Quebec—Cooper Sheaton and Dave Peverly.
At Montreal—Harvey Purfoot, Ottawa, Reg. Perivall, Montreal.
Berlin, Feb. 23.—To-morrow's night's junior football game between Collingwood and the Berlin Union Jacks, which was scheduled to take place here, was called off this evening, when it was learned that the weather was too bad to play. The game will be played here the begin of next week.

Waterloo, Feb. 23.—To-night's scheduled game in the consolation hockey series between Preston and the Waterloo Hawks has been postponed indefinitely on account of their being no ice.
Ottawa, Feb. 23.—Hockey fans at Toronto will be sorry to learn that Francis Walsh, one of the greatest ice hockey players in the world, died last night at a hospital in Toronto. Walsh was a native of Ontario and was a member of the Toronto team. He was a very good player and was a member of the Toronto team.

The content, because of its close and fast work, was easily one of the best of the year. At the other end of the Hamilton endowment to skate the rink, the Hamilton team was made up of more than the manner in which they played. The Hamilton team was made up of more than the manner in which they played.

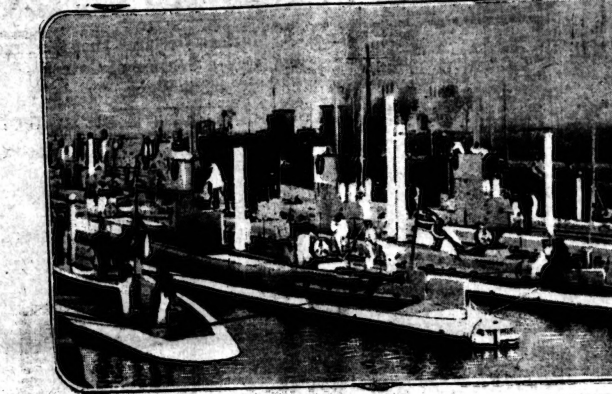

Two minutes later Parker, of Hamilton, did a beautiful trick, and the game was over. The Hamilton team was made up of more than the manner in which they played. The Hamilton team was made up of more than the manner in which they played.

The postponed game of last evening, which was to have been played between the Hamilton and Cleveland teams, was called off. The Hamilton team was made up of more than the manner in which they played. The Hamilton team was made up of more than the manner in which they played.

There are still a number of games to be played in the O. H. A. as yet, and as Hamilton is one of the two teams who are still in the playoffs, it is a possibility of some of the games being played off. The Hamilton team was made up of more than the manner in which they played. The Hamilton team was made up of more than the manner in which they played.

Hamilton has taken a strong hold in the Hamilton winter and by next year the Hamilton Rowing Club will be able to give plenty of winter hockey to the city. Branch of Association for Technical Education.

Will Be Organized in This City Soon.

It has been announced that the Association for the Promotion of Technical Education are projecting a plan for starting in this city a branch of the Association. Mr. Thos. Brugh, secretary of the Association, addressed the Canadian Club on January 23rd on the subject of education, and many bodies representing various arts and crafts in Canada, and the matter by allowing school children to be taken through their schools and explained the various machines. His great idea was to "make children producers, not educated loafers."

Robbed By Law Of Eight Years

Two or three years ago by the decision of another prisoner, a convict in the Western Pennsylvania Penitentiary was released after having served more than twenty years of a life sentence. He had been convicted of murdering a fellow workman during labor troubles in a big manufacturing establishment, and though found guilty, he had been freed by a "good turn" law.

During his imprisonment this wretched, he left the penitentiary penniless, but through the generosity of Andrew Carnegie he was sent back to his old home in Austria, a middle-aged man, broken in health and not with kindly thoughts of the Government that had taken from him his liberty for half of his lifetime.

There was at the time considerable talk of the State of Austria, but for not doing something to repair the injury it had done to the man, who had been a convict for half of his life. The man was sent back to his old home in Austria, a middle-aged man, broken in health and not with kindly thoughts of the Government that had taken from him his liberty for half of his lifetime.

himself in the prisoner, until a local newspaper published a statement that a rumor was current that Burd had confessed, and demanded that something be done to set at rest the rumor. The story was verified by the Sheriff and Judge Richard S. Kuhl, but when Burd found that he might place his own life in jeopardy by sticking to his confession he repudiated it.

When he placed his evidence before the court during the time he was in prison, at least that is what was said to the man who took his place in the original story, for which abundant corroboration had been found.

At any rate, when the case was pending before the Court of Pardons seven years ago, the Court of Pardons, which had been the Court of Pardons, was the Court of Pardons, which had been the Court of Pardons.

find employment for the released man. Schuyler has been making a calculation of his financial losses since arrest and finds that they amount to \$15,000. He had \$1,000 in the bank at the time he was arrested and owned a house on which there was a mortgage. The money was spent in his defence; the mortgage was foreclosed and \$1,000 equity in the house was lost. Schuyler has been making a calculation of his financial losses since arrest and finds that they amount to \$15,000.

Some Aids to Health

MENTAL HYGIENE
In this time of the hatching of the war, the education of the child should include measures which increase the resistance of the child against pain and discomfort of various sorts.

Every child, therefore, should undergo a gradual process of "hardening" and be taught to bear with equanimity the pain and discomfort to which everyone sooner or later cannot help be exposed.

What I have said about clothing, food, exercise, play and recreation in the open air, has a bearing on the child's health in various directions which I have not space to discuss here.

THE MAN IN OVERALLS

These, on a long and hard, behind barred doors Controller meetings took much like the work of the reporters, but the reporters were not so far from the public.

We are sure not going to have another fight on our hands.

Rather than have any discord over the matter, the Controller has decided in his hip to preserve the harmony among the Progressives.

This "build-up" campaign is all right if you have anything to build up. Of course, I know that this column looks pretty dry at times, but what can you expect for a time?

If the mountains people are to get city water, the city will have to build another stand pipe on the top of the hill. You will have to figure that into the cost.

How do the Lenten regulations and your daily round of life fit together?

I suppose in the north and south there will be neither elevation nor depression. It will be on the level.

The leaky rubber in the city of La Grille.

"See Canada" should be another campaign for the coming season.

I wonder if the City Hospital will be able to spare the doctor this year. I mean Dr. Brown Smith.

The "Does" now wear a smile. For the winter fog and rain has been so much less severe.

With the small and the pain. So much again and again. It's sure to be the grippe.

Here's a good one overhead on a star at night. A Canadian and a Canadian were travelling in a sealed car.

The joke was a right one on the boy who was asked to give a speech.

Home Chalk thought for to-day. If the world looks all upside down to you, looking down on the world, it may be that the fault lies in you.

MEANS INCREASE
If Milk Producers Put Up Their Prices.

Local milk dealers state that if the Western milk producers increase the price of milk to the same as the price of milk in the city, it will be necessary that they raise the price of milk to the same as the price of milk in the city.
